

The responsibility of appropriateness of material is solely the responsibility of the school, the troupe director, and the student(s). District XII Thespians, in no way, is responsible for content and/or choice of material.

As troupe director of Troupe # _____, a member of District XII Thespians, I have approved all the titles entered into competition by our school. I have indicated pieces that are considered to contain “adult material” by marking and registering the corresponding asterisk codes to the material being presented. My administration has been informed of any material that might be considered adult in nature. I have instructed my students that material may not be altered once the troupe director and administration have approved it.

District XII Thespians requests that you verify that the one act play and individual events representing your school at the District XII Thespian Festival have been screened by the troupe director and endorsed by the principal or his/her designee. We ask you to certify that it meets your community standards and the standards set down by your school board and/or your school. We also understand that this caveat will not guarantee that all material presented will fit the guidelines of all schools. To that end, we will continue to label material as a further means of denoting which material some members of the audience may find offensive.
